

Dave Lamberts

Division 5 Candidate

I retired from ophthalmology about 8 years ago. It was clear my day job was interfering with my model railroading.

I model the Denver & Rio Grande Western narrow gauge (HOn3) from about 1930 when the mining towns in Colorado were not doing well.

I have been an NMRA member since 1989 and a member of the Lubbock Model Railroad Association from over a decade, most of that time spent as treasurer.

For the past several years I have been the official photographer of the Lone Star Region.

I was pleased to be awarded the "Volunteer" and Scenery" achievement awards in 2012.

As director of Division Five of the LSR I look forward to helping work with the board in the upcoming year.
